

# CONTRACT MANAGEMENT

## CAPABILITIES BRIEF

Eagle Health Analytics, LLC (EHA) is a certified 8(a) Alaska Native Corporation (ANC) that contracts with federal agencies and military partners through both the direct award and competitive procurement processes. We provide the expertise necessary to bring effective contracting strategies to federal agencies starting with early stage pre-solicitation procedures ending at final contract closeout procedures. EHA is committed to providing the best possible acquisition support services, thereby allowing agencies to become more effective and efficient in procuring the types of supplies and services to best carry out the goals and missions of the agency.

As a small business, EHA is singularly qualified to support federal programs in spheres where previously only large companies have been players. Our 8(a) status allows EHA to accept direct awards (sole-source contracts) up to \$22 million. Awards to an 8(a) ANC cannot be protested.

## PRE-SOLICITATION / AWARD SERVICES

EHA Contract Specialists are trained to be fully compliant with all FAR procedures relating to pre-award activities. Working closely with designated Contracting Officers, our specialists perform strategic market research to determine the best possible procurement method for the required supplies or services. EHA specialists have proven track records in utilizing FedBizOpps, FedBid, GSA E-Buy, and NASASEWP for posting solicitations and other requirements. FAR Parts 8,10,12, and 13.

## CONTRACT LIFECYCLE MANAGEMENT

EHA is dedicated to monitoring and managing contract requirements. Our specialists perform a variety of contract modifications, option exercises, key personnel changes, funding obligations, and changes within scope. EHA provides all these critical functions of contract management using an approach that best blends authority given by the FAR and a Contracting Officer's discretion. The outcome of this approach is measured by the increase in overall compliance, the reduction of risk, and the increase in the number of total actions processed each year by the agency to fulfill its mission in acquisition and procurement services. FAR parts 3, 42, 43, and 52.

## CLOSEOUT SERVICES

EHA provides full Closeout Support Services and specializes in all facets of closeout procedures including the closeout of SAP supply orders to multi-year, cost reimbursable IDIQs. EHA specialists are adept at working closely with Contracting Officers in performing indirect cost rate reconciliations. This critical support function has allowed agencies to eliminate backlogs and more closely comply with FAR section 4.804, thus reducing agency costs and maximizing mission goals. FAR parts 4 and 42.
