

MILITARY MEDICAL RESEARCH

CAPABILITIES BRIEF

Eagle Health Analytics, LLC (EHA) is a certified 8(a) Alaska Native Corporation (ANC) that contracts with federal agencies and military partners through both the direct award and competitive procurement processes. We provide essential medical care and help develop the most innovative medical technologies that transcend all domains of Military Medicine. Our scientists and laboratory staff have established and well-respected relationships with many military medical research sites; the innovations developed through these partnerships will improve the treatment of all military personnel and improve public health measures on a global scale.

As a small business, EHA is singularly qualified to support federal programs in spheres where previously only large companies have been players. Our 8(a) status allows EHA to accept direct awards (sole-source contracts) up to \$22 million. Awards to an 8(a) ANC cannot be protested.

COVID-19 CONVALESCENT PLASMA

EHA operates as a Prime Contractor for the U.S. Army's Program to Provide Convalescent Plasma as Emergency Treatment for COVID-19. We support the Armed Services Blood Program's (ASBP) mission to collect, process, test and provide quality COVID-19 convalescent plasma and other blood products from volunteer donors and to coordinate the distribution of blood products to Military Treatment Facilities worldwide in order to provide life-saving therapeutics to patients infected with SARS-CoV-2. This contract is funded through the White House's Operation Warp Speed (OWS).

DEFENSE HEALTH AGENCY

EHA provides experts to support the Defense Health Agency (DHA). EHA helps the DHA lead the Military Health System integrated system of readiness and health to implement shared services with common measurement of outcomes; enable rapid adoption of proven practices, reduce unwanted variation and improve the coordination of care across time and treatment venues; exercise management responsibility for joint shared services and the TRICARE Health Plan; and act as the market manager for the National Capital Region (NCR) enhanced Multi-Service Market, which includes

Walter Reed National Military Medical Center and Fort Belvoir Community Hospital.

LABORATORY SURGE SUPPORT

EHA was selected to provide expert Senior Clinical Laboratory Consultants, Senior Scientists, and Laboratory Technicians to serve both Camp Zama in Japan and Camp Humphreys in South Korea. This Manpower Services Contract is mission critical to support the current testing for COVID-19 and other emerging microbiological concerns in the Pacific. EHA quickly drew upon our catalog of Public Health Laboratory professionals to meet the requirements and ensure efficient, accurate laboratory support and to provide complex clinical laboratory consulting in challenging environments.

SUPPORTING THE U.S. MILITARY

EHA supports a wide range of research, clinical, and educational programs across the branches of the U.S. Military. Our work includes efforts at Lackland AFB with the 59th Medical Wing. EHA was recently awarded a ten year, \$250M contract from the U.S. Army Medical Research Acquisition Activity (USAMRAA) to provide Research Activities Support Services (RASS) to the U.S. Army. Our clinical capabilities involve comprehensive care for wounded warriors, comprehensive public health promotion, hearing loss prevention and treatment, and physician/pharmacist staffing.
